DevOps Engineer with years of experience architecting enterprise, cloud-native infrastructures. Expert in scaling highly available systems, optimizing CI/CD pipelines, and implementing Infrastructure as Code (IaC). Proven track record of enhancing reliability, security and automation within large-scale, cross-functional environments to drive seamless, high-performance software delivery.

Work Experiences

Total Experience as an IT Professional : 3+ Years

DevOps Engineer | S O InfoTech (P) Ltd., Noida
July 2024 – Present

- Designed, Implemented and managed scalable, real-time solutions for multiple clients. Executed Infrastructure as Code (IaC), reducing environment setup time by 50%.
- Improved and achieved system reliability to ~99% uptime & minimized manual intervention, reducing deployment time by 30-40% with faster build and deployment automation.
- Enhanced release consistency, reduced errors by ~25%, and strengthened security by identifying & resolving 80%+ code and image vulnerability scanning pre-production.
- Configured monitoring & logging systems, improving issue detection & reducing downtime response time by ~30%.

Related Skills: Microservices Architecture, Provisioning

DevOps Engineer | E C Enterprises, Lucknow
July 2023 - June 2024

- Managed and maintained web infrastructure using DevOps practices, ensuring autoscaling, high availability, performance optimization, and seamless deployments across environments.
- Automation of deployments, provisioning systems, monitored systems, handled CI/CD pipelines, and Integrated security, scalability, and reliability improvements for web applications.

Related Skills: Pipeline Infrastructure Automation, Observability

Linux System Administrator | E C Enterprises, Lucknow
January 2023 - June 2023

- Managing and maintaining systems for optimal performance and security. Expertise in hosting, domain management, and troubleshooting to ensure a seamless online presence.
- Proficient in system monitoring, backup strategies, and resolving technical issues efficiently to maintain a secure and reliable infrastructure.

Related Skills: Server Management, Networking & Security

Earlier Experience as Non-IT Professional :

Academic roles (Assistant Professor | Guest Faculty) **related to** Data Communication Networks and Computer Networks.

Academic Records

Kamla Nehru Institute of Technology (KNIT), Sultanpur
Post-Graduation | *M.Tech/Master of Technology* **(2019-2022)**
Stream: Digital Electronics and Systems

Rajarshi Rananjay Sinh Institute of Management & Technology (RRSIMT), Amethi
Graduation | *B.Tech/Bachelor of Technology* **(2013-2017)**
Stream: Electronics and Communication

Languages Known

Hindi (Native) **English** (Full Professional)

Technical Skills

Cloud Platform/ DevOps Tools :

Amazon Web Services (AWS) : EC2, S3, VPC, IAM, Auto Scaling, CloudFront, SQS, SNS, RDS, ECR, ECS, EKS, Lambda, Route53, ALB, CloudWatch(Metrics/Alarms/Logs), API Gateway, CodeArtifact.

Tools : Git, GitHub, Jenkins, GitLab CI/CD, GitHub Actions, Nexus, Kubernetes (Deployments, StatefulSets, Ingress, HPA), SonarQube, Terraform (Modules/Workspaces), Maven, Trivy, Datadog, Ansible, Docker (Multi-stage), Prometheus, Grafana.

Shell Scripting : Bash Scripting.

IDEs/Editors/ Development Tools :

VisualStudio Code (VS Code), MobaXTerm, AI Tools.

Operating Systems :

Windows 11, Linux (Ubuntu, RedHat), macOS.

Trainings & Certifications

AWS and DevOps Certification Course
Ducat Training Institute, Noida | 6 Months **(2024)**

- Implemented end-to-end CI/CD pipelines and Infrastructure as Code (IaC) on AWS for automated, reliable deployments.
- Designed and managed highly available, fault-tolerant cloud systems using core AWS Cloud Services and DevOps tools.
- Automated security controls, performance monitoring, and infrastructure provisioning to ensure scalability and resilience.

Linux Complete Training Course
Udemy | 2 Months **(2023)**

- Mastered command-line operations, file system management, and system administration for secure server environments.
- Configured networking, security hardening, and troubleshooting protocols to maintain high system availability.

Training on Core PHP with MySQL
MADRID Software Training Solutions, Saket | 2 Months **(2017)**
Developed static and dynamic web applications using Core PHP and MySQL database architecture by HTML, CSS and Javascript.

Project Works

Cloud Services & DevOps Projects
CI/CD Pipelines to ensure Reliable Delivery of Features & Fixes (Aeroline) | Enterprise CI/CD Pipeline with DevSecOps (Quantum) | Cloud-Native Three-tier Website Deployment etc. **(2023-Present)**

- Designed CI/CD pipelines ensuring reliable delivery of features, fixes, and automated testing across environments.
- Implemented security best practices & deployed cloud native applications with scalable, secure cloud infrastructure.

PHP Core and MySQL Project
Travel Booking Service Using Core PHP And MySQL **(2018-2019)**
Built real-time travel booking system with seat selection, optimized MySQL queries. Developed APIs, responsive UI, and efficient backend logic, improving performance & user experience.
